

MEET PROTEXURE

Protexure focuses on providing comprehensive, affordable professional liability protection to small to mid-size accounting and law firms.

At Protexure, building and maintaining meaningful relationships with our Subproducers is extremely important to us. Our quick turnaround time (within 24 hours) and access to our underwriting online platform sets us apart from the rest.

SUBPRODUCER ACCESS

Qualified subproducers are given access to our online platform which gives agents the capability to run indications and send new business application links directly to clients for online completion.

Automatic renewal links are emailed to the insured for application completion and agents can send quotes directly to the insured once reviewed and approved by Underwriting. Our underwriting platform simplifies business operations, ultimately saving you valuable time and money.
